## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The examiner would like to note that the information disclosure statement filed Feb. 10, 2005 was not considered since the information presented on the IDS was presented in IDS filed on July 2, 2001.

### ***Allowable Subject Matter***

1. Claims 4, 6, 33-35 and 37-39 are allowed the prior art.

2. The following is an examiner's statement of reasons for allowance: regarding claims 4 and 35, the primary reason for the allowance of the claims is due to an integrated circuit (IC) burn-in system comprising, in combination of with other limitations in the claim, a computer system having a processor operating under a control of a computer program wherein the computer system is to compare the temperature indication with a temperature value determined by the computer program; wherein if the temperature indication substantially matches the temperature value, the computer system is to bin the at least one IC at that temperature value; and wherein if the temperature indication is less than the temperature value, the computer system is to decrement the temperature value and compare the temperature indication with the decremented temperature value. Since claims 6, 33-34 depend from claim 4 and claims 37-39 depend from claim 35, they have allowable subject matter.

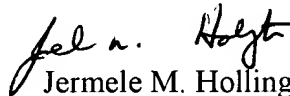

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
